Good afternoon Lisa.

Our sincere condolences on your loss, and thank you for acting on such short notice. We will share WM Barr's input with our team internally as well as with SBA and OMB. Also, remember that you will have additional opportunity to review new and revised outreach materials and provide comment once we kick off the formal panel.

Thanks again.

Hi Niva and Nathaniel,

Thank you for granting the extension for this submission. Mike Cooley, who was our representative on this panel, passed away unexpectedly almost three weeks ago. With such a short amount of time and starting from scratch, I did not have time to collect much of the information requested in the SER Questions for Discussion. If further information is needed from Barr, I would be happy to get a package together with additional details.

Regards,

Lisa

Hi Niva,

Thank you for sending the information. I probably will need some extra time to review everything.

Thanks,

Lisa

Hi Lisa –

Thanks for the email! I will be forwarding you an email that has all the information and the presentations. Please let me know if you have questions, or if you'd like a little additional time to send in any written comments. We are asking for them by Thursday 3/31, but it might be possible to provide a little extra time.

Additionally, there will be a future meeting with an opportunity to provide additional input.

Thanks!

Hi Rebecca –

I just sent an email to Mike Cooley, and got an automated message referring you as the contact. We value WM Barr's input on this rulemaking, and it would be great to get your written comments at this stage. Please see the email below, and please let me know if I can send you any of the materials mentioned (a powerpoint and list of discussion questions).

Thanks –

Niva

Hello Mike,

Thank you very much for agreeing to be one of the potential Small Entity Representatives to the Small Business Advocacy Review Panel for EPA's rulemaking under the Toxics Substances Control Act Section 6(a) for Methylene Chloride and N-Methylpyrrolidone in Paint and Coating Removers.

I hope that the information we provided in early March provided useful background information for you, and helped to explain why EPA is undertaking this rulemaking. We are interested in your thoughts on the materials, any questions you might have, and any feedback you have on the discussion questions sent as part of those materials. We are revising our presentation for a future meeting when the panel is formally convened, and are very interested in your feedback. Revisions to the presentation will be based on your comments.

Please send any information or questions to Jutras.nathanial@epa.gov by the end of the day on Thursday, March 31. Please DO NOT email any confidential business information; I can make arrangements for transmission of that if necessary.

Please let me know if I can help and if you have any questions. We are looking forward to your comments, and to further discussions once the panel is formally convened.

Thanks –

Niva
